Mission details

Mission Details

DemoSat

Flight #2

Year: 2007

Rocket Name: Falcon 1

Rocket Type: Merlin A

Details: Successful first stage burn and transition to second stage, maximum altitude 289 km, Premature engine shutdown at T+7 min 30 s, Failed to reach orbit, Failed to recover first stage

FalconSat
Flight #1

Year: 2006

Rocket Type: Merlin A

Rocket Name: Falcon 1

Details: Engine failure at 33 seconds and loss of vehicle

DemoSat
Flight #2

Year: 2007

Rocket Type: Merlin A

Rocket Name: Falcon 1

Details: Successful first stage burn and transition to second stage, maximum altitude 289 km, Premature engine shutdown at T+7 min 30 s, Failed to reach orbit, Failed to recover

Trailblazer
Flight #3

Year: 2008

Rocket Type: Merlin C

Rocket Name: Falcon 1

Details: Residual stage 1 thrust led to collision between stage 1 and stage 2

RatSat
Flight #4

Year: 2008

Rocket Type: Merlin C

Rocket Name: Falcon 1

Details: Ratsat was carried to orbit on the first successful orbital launch of any privately funded and developed, liquid-propelled carrier rocket, the SpaceX Falcon 1
